

I manage Balance CarryForward

Tasks to be completed when documenting an operation (from creation to publication)

1. Enter the **Title of the operation / page**

2. Add the following Labels:

- Scope of applicability: ww, country_accounting
- Country or group of countries (if applicable): belux, china, france, italy, lam, nam,uk_ie, bulgaria, dach, netherlands, iberia, poland, latvia, australia, india, japan, south_korea, thailand, singapore, new_zealand, emea_transversal, apac_transversal
- Unit and Domain according to the [List of labels to be used in the Finance Service Line space](#)
 - E.g. 1: WW Operation in Financial Accounting under domain "Central Finance Processes & Compliance":
 - Labels to be used: **ww, financial_accounting, central_fin_proc_compliance**
 - E.g. 2: France Operation in Financial Accounting:
 - Labels to be used: **country_accounting, france, financial_accounting**
(for country operations, the Domain is always country_accounting)

3. Fill in all fields as described above

4. Name the title of each section using OPD methodology naming convention - **Infinitive verb without the "to", mainly action verb...something) -" I do something..."**

5. Once the description of the operation is completed, ensure it is approved and published by launching the [SBS-Finance approval workflow](#)

Domain: Financial Accounting

Responsibility area: Ensure consistency of data

<< I manage Balance CarryForward
>>

1. Objective and Scope

1.1. Objective of this Operation

When the fiscal year changes, the item balances need to be carried forward from the old fiscal year to the new fiscal year. The balance carry forward function carries forward the designated item balances into the carry forward period (period 000, new year).

1.2. Scope

The scope are all active PF2 and WP2 companies.

2. Definitions

See [Finance Glossary](#):

- ...

3. Tasks description

The SAP system uses the following logic:

Balance sheet items are generally always carried forward.

Income statement items are only carried forward if explicitly designated as carry forward items. (not common)

Statistical balance items are generally always carried forward.

Statistical flow items are only carried forward if explicitly designated as carry forward items. (not common)

In Syensqo only balance sheet items (statistical or not) are carried forward.

I/S items are transferred to the retained earning account.

3.1. I manage Balance CarryForward Variants in FCC

3.1.1. I update the variants for the Balance Carryforward based in the List of Entities

I update the variants for the Balance Carryforward before the Year End Closure. In order to do it properly, I must retrieve information from the AODocs library F Finance Legal Entities management SCO library > [Legal Entity Card](#).

Afterwards, all the variants must be extracted from SAP in order to compare which companies are being considered, which shall be included or excluded from the variants (new companies/sold/liquidated companies).

The variants are worldwide and are the following:

Transaction	Variants	
	PF2 All	WP2 All
F.16	CARRYFORWARDSC	CARRYFORWARDSC
F.07	CF AP AR SCO	CF AP AR SCO
ACACCARRYFORWARD	CFACCRUALENGSC	CFACCRUALENGSC

To update the variants, I can enter each transaction and add or remove companies from the company code selection field. Afterwards, the FCC jobs will be updated accordingly, bearing in mind that the Balance Carryforward is a Yearly task and, therefore, should be included in the Task Group dedicated to GL team, FSL_TG_GLS, in folder JANUARY.

Transaction	Transaction description	Timing
F.16	GL balances	from January 1st mid night to January 31st
F.07	Payables and Receivables	from January 1st mid night to January 31st
ACACCARRYFORWARD	Accrual Engine	one time run in January/February

Customizing: Change Task Group FSL_TG_GLS

Closing Structure

- 0 FSL_TG_GLS
 - 1 Service Unit Finance Accounting
 - 2 General Ledger
 - 558 Yearly Tasks
 - 559 JANUARY
 - 1893 Balance Carryforward
 - 1625 WW Balance Carry forw
 - 1626 D+1

Task List

Type	Task ID	Task Description	Planned Duration	Inactive	Long Text	Offset	Def.Offs.	Global ID Variant for Job
	1631	Balance carryforward G/L ALL SCO	0 00:30:00			0	06:00...	GLA FA... CARRYFORWARDSC

	1637	Carry Forward Accrual Engine ALL SCO	0 00:30:00			0		GLA FA... CFACCRUALENGSC

3.2. I run Balance CarryForward for GL Balances

I run Balance Carryforward for GL Balance by running transaction F.16.

The screenshot shows the SAP 'Balance carryforward' transaction interface. The title bar reads 'Balance carryforward'. Below it is a navigation bar with icons for help, information, and a history button labeled 'Balance Carryforward History'. The main area is divided into three sections: 'Parameters', 'Processing options', and 'List output'. In the 'Parameters' section, 'Company code' is set to '0003' and 'Carry forward to fiscal year' is set to '2024'. The 'Processing options' section has three unchecked checkboxes: 'Test run', 'Accts processed in intervals', and 'Reset Balance Carryforward'. The 'List output' section has two checkboxes: 'Output list of results' (checked) and 'Balances in retain.earnng.acct' (unchecked). The SAP logo and transaction code 'F.16' are visible in the bottom right corner.

Parameters	
Company code	0003
to	
Carry forward to fiscal year	2024

Processing options	
☐	Test run
☐	Accts processed in intervals
☐	Reset Balance Carryforward

List output	
☒	Output list of results
☐	Balances in retain.earnng.acct

I must take into consideration that I DO NOT flag "balances in retain. Erng acct".

Include one or several companies; if available (recommended), use a variant for the companies to be run.

The transaction can be ran several times in January, so I may create one job to run every day from 1st of January at midnight (taking into account the different time schedules) to 31st of January. After this date, the transaction will run only by request from the local finance team.

The balance carry forward are automatically updated when the balances of the previous year have been changed due to postings in the prior year end closing after the first execution of the transaction.

3.3. I run Balance CarryForward for Payables and Receivables

I run Balance Carryforward for Payables and Receivables by running transaction F.07.

SAP | F.07 ▼

Enter the company codes to be carried forward and the new year.

“Flag” customers and vendors selection.

Unless specifically requested, do not flag “Detail log”. This indicator allows to display a line item per account and special G/L indicator which displays the amount by which the carry forward into the new fiscal year would change (in the test run) and/or changed (in the production run).

The transaction can be run several times in January, so create one job to run every day from 1st of January at midnight (taking into account the different time schedules) to 31st of January. After these dates, the transaction will be run by request from local finance team.

The balances carry forward are automatically updated when the balances of the previous year have been changed due to postings in the prior year end closing after the first execution of the transaction.

3.4. I run Balance CarryForward for Accrual Engine

I run Balance CarryForward for Accrual Engine by running transaction ACACCARRYFORWARD.
