General description:

Raw Materials section provides a comprehensive overview of both primary and secondary data used for corporate 3.1 reporting.

Filters

At the top of this section, a comprehensive set of filters allows users to customize their analysis. You can filter the data by:

- Source System
- Calendar Year
- Company Zone Name
- Plant Site Name
- Material Product Code
- Material Product Name
- Material Value Chain Pur Name
- Material Code
- Material Name
- GBU
- Vendor Group Pur Name
- Vendor Group Pur Name Clean
- Vendor Country Name
- Vendor Prs Vendor Code
- Vendor Prs Vendor Name
- Segment Name
- Material Attribute
- Quantity VKT
- Adj Coeff Secondary
- Ef Secondary
- Secondary Data Source
- Source Text
- GHG Footprint Secondary Resources ktCO2
- Adj Coef Supplier
- Pcf Supplier
- GHG Footprint with Supplier PCF ktCO2
- Ef GHG Footprint
- Source GHG Footprint

Export Data

Possibility to extract the data in a CSV/Excel/Gsheet file by clicking on the button "Export Data".

Guided Tour: Using This Section
