

Coating & Surface Engineering

| APPLICATIONS | THEORY, KNOWLEDGE & MODELS | CAPABILITIES |
|--|---|---|
| <p>Low surface energy coating</p> <p>PFPE</p> | <p>Coating composition</p> <p>Liquid & Powder coating</p>  | <p>ADL Coating Bollate</p> <p>Lab capabilities slides</p> |
| <p>Barrier coating</p> <p>PVDC</p> | <p>Application processes</p> <p>Coating and films preparation</p>  | <p>ADL Coating Alpharetta</p> <p>Lab capabilities slides</p> |
| <p>Anti-corrosion coating</p> <p>ECTFE, PAI, PEEK, PPS etc.</p> | <p>Testing & Characterization</p> <p>Standards & methods</p>  | <p>ADL Coating Shanghai</p> <p>Lab capabilities slides</p> |
| <p>Cookware non-stick coating</p> <p>PAI, PESU, PPSU, PEEK</p> | <p>Reverse Engineering</p> <p>Composition & property</p>  | <p>ADL Coating EWHA</p> <p>Lab capabilities slides</p> |
| <p>Construction coating</p> <p>(PVDF)</p> |  |  |
| <p>Piezoelectric films</p> <p>(Solvane, PVDF)</p> |  | |
| <p>Coating for Electrification</p> | | |
