

Microscopy, Solution and Colloids Lab

Mission

The **Microscopy, Solution and Colloids Lab** is focused on the morphological characterization and on the characterization of polymers in solutions and dispersions.

In Microscopy, the morphology, size, texture, local composition are critical parameters in material science. Those measurements are performed at every steps of the development of new products: synthesis, processing, commercial development.

In Solution and Colloid chemistry, the molecular weights, diameters of particles, viscosity, density and colloidal stability are the main properties studied by the team during a polymer development/production process.

Both for experimental and production products, the above properties are crucial because they influence the final performances of the polymers.

The main customers of Microscopy, Solution and Colloids Lab are:

- R&I (Research and Innovation)
- CTD (Customer Technical Development)
- Production Plants

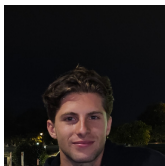

To guarantee the validity of the results, the laboratory participates in quarterly global cross-check with other Syensqo labs on Inherent Viscosity, both on aromatic and fluorinated polymers.

Techniques

- **Microscopy**
 - **Sample preparation**
 - **Optical Microscopy (OM)**
 - **Scanning Electron Microscopy (SEM, SEM-EDS Energy Dispersive Spectroscopy)**
 - **Surface Contact Angle (SCA)**
- **Solution**
 - **Gel Permeation Chromatography (GPC)**
 - **Viscosity (intrinsic/inherent**
 - **kinematic and dynamic) and density**
- **Colloids**
 - **Dynamic Light Scattering (DLS)**
 - **Colloid Characterization (Zeta Potential, Turbiscan, ...)**

Team

	Name	Role	location
	COTOGNO, Roberta	Team Leader	B102-109
	CASSANO, Domenico	Researcher Microscopy and Solution & Colloids Expert	B102-08
blocked URL	LORUSSO, Massimiliano	Technician	B102-08
	LUGARA', Alessandra	Technician	B102-111

	MISURIELLO, Mattia	Technician	B102-110
	RESTELLI, Elisa	Technician	B102-011
blocked URL	ROSSI, Claudia	Technician	B102-011
	TACCONE, Tiziana	Technician	B102-111
	TIRLONI, Lorenzo	Temporary Lab Technician	B102-110
	CRIPPA, Valentina	Temporary Lab Technician	B102-110
