

# Key Decision Documents

Key decisions taken by the M365 Migration Project are documented as Key Decision Documents (KDDs) and recorded in this Confluence space.

## Key Decisions

|                                                                                            |
|--------------------------------------------------------------------------------------------|
| NEW                                                                                        |
|                                                                                            |
| PREPARATION                                                                                |
| <a href="#">[WIP]LM01_KDD015 - MultiGeo</a>                                                |
| <a href="#">[WIP]LM01_KDD034 - License Assignment Mechanism</a>                            |
| PENDING DECISION                                                                           |
| <a href="#">LM01_KDD020 - Legal hold users data retention mechanism (Vault / Purview)</a>  |
| <a href="#">LM01_KDD033 - Data Retention Policy</a>                                        |
| DECIDED                                                                                    |
| <a href="#">LM01_KDD001 - Migration Strategy</a>                                           |
| <a href="#">LM01_KDD004 - Gmail Labels migration</a>                                       |
