Please select the application (required)

Search from available values

Additional Information (required)

Type of Request - User Creation

- Please select the application - Jira

Business Justification - Joining the Data Team and going to work on Azure Data Platform. Hence require Jira to access board to create and update tasks. Additional Information – This is important, request will not approve and processed further without full details, so make sure to copy below details.

Access Details

- Why do you need access to Jira? **Answer:** Project Management/Task creation and Updating
- Which Jira product do you need access to? **Answer:** We need access to “**Azure Data Squads**” space
- Access Level Requested: **Answer:** Project Contributor
- Business justification for access? **Answer:** Working as a Data engineer in the team, i would need to see the Jira board and create and update the task.
- Is this access temporary? **Answer:** No
- Do you require any special permissions (e.g., creating projects, manage workflows)? **Answer:** No Special Permission needed, Only I should be able to see and update the task/epic/user story.
- Fill the below document attached, and add the filled document as attachments in this ticket.
[Jira access request - Business Needs Questionnaire.docx](https://docs.google.com/document/d/10yQ-XxdG1hGYikol-7wILMz4QR41HY7XqzS9zYt4F-A/edit?tab=t.0#heading=h.tmttw058pa5l)
